Client Action and Recommended Testing

Client action is not required for these enhancements. However, you should review this information to determine potential impacts to your business processes, policies, and systems to support these enhancements. Clients who choose to utilize these features are strongly encouraged to complete testing prior to implementing in their production environment.

The NPS User Acceptance Test (UAT) environment is available for clients to test new functionality and for regression testing. NPS strongly recommends that you perform regression testing to ensure that your system continues to perform as expected.
