Nelnet Payment Services
Release Notes for May 2025

Implementation Summary

Nelnet Payment Services (NPS) will deploy the following projects to the UAT environment on May 23, 2025 (the Production deployment date is yet to be determined):

- **Updated BIN Response –** NPS has updated the Payments API retrieve response to return the non-traditional BIN brand in the BIN Level field. The description will be updated as follows:

Bin Level	The non-traditional card brand (if available) of the card being used as determined by the BIN number.
	Required: Yes
	Note: A <Param> with this attribute will always be present, but in some cases may be blank.

The following is an example of a successful retrieve response with the updated information highlighted:

```
<cryptpay>
<Params>
<Param name="cryptcard">4TST04Ektz7A1111</Param>
<Param name="cryptpayCreditCardMask">4***********1111</Param>
<Param name="issuerCountryCode">840</Param>
<Param name="internationalFlag">false</Param>
<Param name="Bin Type">CREDIT</Param>
<Param name="Bin Level">INLK</Param>
<Param name="cryptpayHash">0a40a9df0c2d7fe73c07237863e5d1a2c965a099</Param>
<Param name="customerName">Test2A</Param>
<Param name="cryptpayTimestamp">1730903914891</Param>
<Param name="reference">1235RefTest</Param>
<Param name="Bin Brand">VISA</Param>
<Param name="cryptpayExpireMonth">12</Param>
<Param name="cryptpayExpireYear">26</Param>
<Param name="key"></Param>
</Params>
</cryptpay>
```

Note: Information about the updated BIN response will be added to the ***Nelnet Payment Services Web API Credit Card Transaction Specifications*** document in a future release of version 6.1.

Client Action and Recommended Testing

Client action is not required for these enhancements. However, you should review this information to determine potential impacts to your business processes, policies, and systems to support these enhancements. Clients who choose to utilize these features are strongly encouraged to complete testing prior to implementing them in their production environment.

The NPS User Acceptance Test (UAT) environment is available for clients to test new functionality and for regression testing. NPS strongly recommends that you perform regression testing to ensure that your system continues to perform as expected.

For general assistance, contact NPS Client Services or call 1.866.431.4637.
