

Nelnet Payment Services

Release Notes for June 2025

Implementation Summary

Nelnet Payment Services (NPS) will deploy the following projects to the Production environment on June 11, 2025 (it was previously deployed to UAT on May 23, 2025):

- **Updated BIN Response** – NPS has updated the Payments API retrieve response to return the non-traditional BIN brand in the BIN Level field. The description is as follows:

| | |
|--|---|
| Bin Level | <p>The non-traditional card brand (if available) of the card being used as determined by the BIN number.</p> <p>Required: Yes</p> <p>Note: A <Param> with this attribute will always be present, but in some cases may be blank.</p> |
| <p>The following is an example of a successful retrieve response with the updated information highlighted:</p> <pre> <cryptpay> <Params> <Param name="cryptcard">4TST04Ektz7A1111</Param> <Param name="cryptpayCreditCardMask">4*****1111</Param> <Param name="issuerCountryCode">840</Param> <Param name="internationalFlag">>false</Param> <Param name="Bin Type">CREDIT</Param> <Param name="Bin Level">INLK</Param> <Param name="cryptpayHash">0a40a9df0c2d7fe73c07237863e5d1a2c965a099</Param> <Param name="customerName">Test2A</Param> <Param name="cryptpayTimestamp">1730903914891</Param> <Param name="reference">1235RefTest</Param> <Param name="Bin Brand">VISA</Param> <Param name="cryptpayExpireMonth">12</Param> <Param name="cryptpayExpireYear">26</Param> <Param name="key"></Param> </Params> </cryptpay> </pre> <p>Note: Information about the updated BIN response is available in version 6.1 of the Nelnet Payment Services Web API Credit Card Transaction Specifications document.</p> | |

The information in this document is confidential and proprietary and is distributed to Nelnet Payment Services clients for their exclusive use in operating NPS applications. It may not be reproduced in any form without prior written permission from NPS, LLC.

Client Action and Recommended Testing

Client action is not required for these enhancements. However, you should review this information to determine potential impacts to your business processes, policies, and systems to support these enhancements. Clients who choose to utilize these features are strongly encouraged to complete testing prior to implementing them in their production environment.

The NPS User Acceptance Test (UAT) environment is available for clients to test new functionality and for regression testing. NPS strongly recommends that you perform regression testing to ensure that your system continues to perform as expected.
