

# Nelnet Payment Services

## Release Notes for March 2026

### Implementation Summary

Nelnet Payment Services (NPS) will deploy the project listed below to the Production environment on March 18, 2026.

### Multi-Iteration

The following project has additional development and testing requirements and will **not** be live when it is deployed:

- **AVS and CVV Enforcement Enhancements** – This deployment includes internal development supporting the future implementation of optional AVS and CVV enforcement for clients integrated with NPS Direct. These enhancements will be deployed in stages and are not yet available for use.

### Client Action and Recommended Testing

Client action is not required for these enhancements. However, you should review this information to assess potential impacts on your business processes, policies, and systems that support these enhancements. Clients who choose to use these features are strongly encouraged to complete testing before implementing them in their production environment.

The NPS User Acceptance Test (UAT) environment is available for clients to test new functionality and for regression testing. NPS strongly recommends performing regression testing to ensure your system continues to perform as expected.

For general assistance, contact [NPS Client Services](#) or call 1.866.431.4637.

The information in this document is confidential and proprietary and is distributed to Nelnet Payment Services clients for their exclusive use in operating NPS applications. It may not be reproduced in any form without prior written permission from NPS, LLC.
