# Nelnet Payment Services
## Release Notes for January, 2023

## Implementation Summary

Nelnet Payment Services (NPS) is deploying the projects mentioned in these release notes to UAT on January 25, 2023 and to PROD on February 1, 2023:

- Fix to Worldpay Recurring Payments

  NPS Direct is implementing a fix to update the values sent in Worldpay terminal and credential-on-file (COF) fields for recurring transactions.

## Multi-Iteration/Coded but Not Yet Deployed

Any project(s) listed here will not be live at the time of the deployment dates indicated above; but are part of a project that will be used in a later release:

- Apple Pay Integration and Certification
- Global Payments Integration and Certification
- Rapid Connect Recertification
- TSYS TransIT Soft Descriptor Element Added

## Internal System Maintenance

- Internal Security Updates *(deployed to UAT on January 24, 2023)*

## Client Action and Recommended Testing

Client action is not required for these enhancements. Review this information to determine potential impacts to your business processes, policies, and systems to support these enhancements. Clients that choose to utilize these features are strongly encouraged to complete testing prior to implementing in their production environment.

The NPS User Acceptance Test (UAT) environment is available for clients to test new functionality and for regression testing. NPS strongly recommends that you perform regression testing to ensure that your system continues to perform as expected.
