Nelnet Payment Services
Release Notes for February, 2023

Implementation Summary

Nelnet Payment Services (NPS) is deploying the projects mentioned in these release notes to UAT on February 16, 2023 and to PROD on March 1, 2023.

- Hosted Payment Page Integration with NPS Risk Service
- Rapid Connect Timeout Reversal Handling *(the PROD deployment date is yet to be determined)*

Multi-Iteration/Coded but Not Yet Deployed

Any project(s) listed here will not be live at the time of the deployment dates indicated above; but are part of a project that will be used in a later release:

- Apple Pay Integration and Certification
- Global Payments Integration and Certification

Internal System Maintenance

The following projects are related to internal NPS maintenance:

- Internal Security Updates
- Update Handling of User Profile Fields in Profile Response

Client Action and Recommended Testing

Client action is not required for these enhancements. However, activation of the Risk Service requires coordination with Nelnet Payment Services. Review this information to determine potential impacts to your business processes, policies, and systems to support these enhancements. Clients that choose to utilize these features are strongly encouraged to complete testing prior to implementing in their production environment.

The NPS User Acceptance Test (UAT) environment is available for clients to test new functionality and for regression testing. NPS strongly recommends that you perform regression testing to ensure that your system continues to perform as expected.

If you have questions, contact NPS Client Services or call 1.866.431.4637 or for assistance.

If you have questions about the Risk Service, contact NPS Product Management for assistance.
