PaymentSpring Direct
Release Notes for January, 2021

Environment: User Acceptance Testing (UAT)

Effective January 13, 2021, PaymentSpring Direct will implement enhancements for:

- Peoples Trust PSiGate Integration and Certification

Client Action

Client action is not required for these enhancements.

Review this information to determine potential impacts to your business processes, policies, and systems to support these enhancements.

Clients that choose to utilize these features are strongly encouraged to complete testing prior to implementing in their production environment.
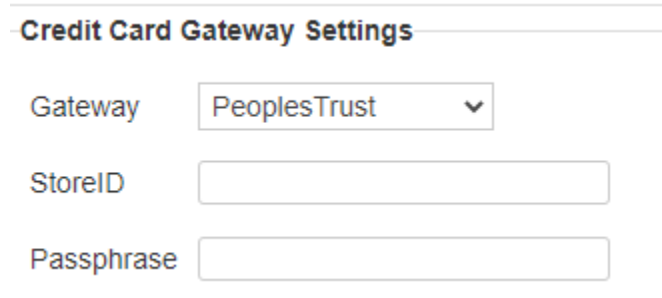

The PaymentSpring Direct User Acceptance Test (UAT) environment is available for clients to test new functionality and for regression testing.

If you have any questions, contact PaymentSpring Client Services at ClientServices@PaymentSpring.com or 1.866.431.4637.

Peoples Trust PSiGate Integration and Certification

PaymentSpring Direct has completed integration and certification with Peoples Trust for the PSiGate Real-Time XML API, version 1.2.20. The new integration will allow PS Direct clients to utilize authorization and capture processing on the Peoples Trust PsiGate platform. Clients are required to have a Peoples Trust merchant account that has access to the PSiGate platform.

With this integration, new fields have been added to the Credit Card Gateway Settings section. Following is an example of the updated screen showing PeoplesTrust as the Gateway; along with descriptions of other fields:

StoreID – The store ID is used to identify a store (or merchant). This ID is assigned by PSiGate and is case sensitive.

Passphrase – The passphrase is the store's password. The passphrase is assigned by PSiGate and is case sensitive.
