PaymentSpring
Release Notes for May, 2022

Enhancements

PaymentSpring Direct has implemented enhancements which will be deployed to the PROD environment on May 25, 2022.

Coded but Not Yet Deployed/Multi-Iteration

Any project(s) listed here will not be live at the time of the release indicated above; but are a part of a project that will be used in a later release.

- PaymentSpring Risk Service

Internal Maintenance Updates

The following projects are related to internal PaymentSpring maintenance:

- PEN Test Remediation
- Portal Refunds

Client Action and Recommended Testing

Client action is not required for these enhancements. However, activation of the Risk Service requires coordination with PaymentSpring. Review this information to determine potential impacts to your business processes, policies, and systems to support these enhancements. Clients that choose to utilize these features are strongly encouraged to complete testing prior to implementing in their production environment.

The PaymentSpring Direct User Acceptance Test (UAT) environment is available for clients to test new functionality and for regression testing. PaymentSpring strongly recommends that you perform regression testing to ensure that your system continues to perform as expected.

If you have any questions, contact PaymentSpring Client Services at ClientServices@PaymentSpring.com or 1.866.431.4637.

If you have any questions about the Risk Service, contact PaymentSpring Product Management for assistance.
