PaymentSpring
Release Notes for June, 2022

PROD deployments will occur on June 22, 2022 for the projects listed in these release notes.

Internal Maintenance Updates

The following projects are related to internal PaymentSpring maintenance:
- Resolved Inconsistent Display of Failed Transactions on Credit Card Transactions Pop-Up Screen
    - UAT Deployment: June 13, 2022
- Internal Security Enhancements

Coded but Not Yet Deployed/Multi-Iteration

The following project is not yet live at the time of this release; but is part of an enhancement that will be used in a later release:
- Risk Service Enablement Field
    - UAT Deployment: June 13, 2022

Client Action and Recommended Testing

Client action is not required for these enhancements. However, activation of the Risk Service requires coordination with PaymentSpring. If you have questions about the Risk Service, contact PaymentSpring Product Management for assistance.

Review this information to determine potential impacts to your business processes, policies, and systems to support these enhancements. Clients that choose to utilize these features are strongly encouraged to complete testing prior to implementing in their production environment.

The PaymentSpring Direct User Acceptance Test (UAT) environment is available for clients to test new functionality and for regression testing. PaymentSpring strongly recommends that you perform regression testing to ensure that your system continues to perform as expected.

If you have any questions, contact PaymentSpring Client Services or call 1.866.431.4637.
