

Nelnet Payment Services

Release Notes for August, 2022

Implementation Summary

Nelnet Payment Services is deploying **Updates to Authorize.Net Transaction Handling**. A fix is being implemented to send AVS data (address and/or ZIP Code) and a market type of e-commerce on Authorize.Net transactions.

This project will be deployed to UAT on August 16, 2022 and to PROD on August 24, 2022.

Multi-Iteration/Coded but Not Yet Deployed

Any project(s) listed here will not be live at the time of the deployment dates indicated above; but are part of a project that will be used in a later release:

- NPS Risk Service
- Rapid Connect Recertification
- Global Payments Integration and Certification

Client Action and Recommended Testing

Client action is not required for these enhancements. However, activation of the Risk Service requires coordination with Nelnet Payment Services. Review this information to determine potential impacts to your business processes, policies, and systems to support these enhancements. Clients that choose to utilize these features are strongly encouraged to complete testing prior to implementing in their production environment.

The NPS User Acceptance Test (UAT) environment is available for clients to test new functionality and for regression testing. NPS strongly recommends that you perform regression testing to ensure that your system continues to perform as expected.

If you have questions, contact [NPS Client Services](#) or call 1.866.431.4637 or for assistance.

If you have questions about the Risk Service, contact [NPS Product Management](#) for assistance.
